Review of Landside & Storage Tariff for Hutchison Ports Sydney (HPS) /
Sydney International Container Terminal Limited (SICTL)

In accordance with the National Voluntary Guidelines for Landside Stevedore Charges Hutchison Ports Sydney give notice of intention to increase our Landside & Storage Tariffs. HPS have now aligned themselves with the request from the National Transport Commission to implement price changes once annually effective January each year.

HPS has been affected over the past 8 months by substantial increases to operating costs. These include increases in council rates, electricity and labour together with site maintenance and servicing. Despite the changes this year, HPB is only seeking partial recovery of costs and will absorb the remaining increases.

Committed to improving service levels HPS took delivery of 2 new Quay cranes in June 2026. These cranes were commissioned in October 2026 and are now part of the terminal operations. This will improve vessel turnaround and help the supply chain with additional capability to move more import and export containers through the terminal.

Changes to charges for 2027 are reflective of the period since the last review.

The table below sets out the current rate for all applicable tariff items and the new proposed rate to be effective Monday 4th January 2027.

Landside Services Tariffs	**Current**	**4/01/27**	Increase	%
Infrastructure Levy - Imports (Applies to all laden Containers)	$233.36	$249.17	$15.81	6.77%
